A/V Capabilities: Hy's private dining area is fully equipped to host a wide variety of events such as business meetings, pharmaceutical and medical presentations, family celebrations and special occasions in an elegant setting with full hi-tech capability. This private dining area features its own video and audio systems, independent lighting control and a retractable partition for privacy.

Video System: A high definition (HD) 60 inch, 1080P resolution flat screen LED TV with Wi-Fi capability is the centerpiece of the video system in the private dining area. Convenient access to multiple industry standard inputs such as HDMI, VGA, RS-232, Ethernet, PC Input, USB, composite video, RGB video among others (all with audio) is provided. A wireless connection to the flat screen via Apple TV provides another convenient way to present from a tablet, PC or any other Wi-Fi enabled device.

An articulating mounting system provides a wide range of tilt and angle adjustments to ensure crisp, clear and fatigue free viewing. The screen can be retracted when not in use and is designed to appear as virtual artwork displaying a limitless variety of photos, graphics, video or custom logos.

Audio System: The audio system consists of high quality full-range ceiling speakers that provide clear, intelligible sound for live speech, video playback, recorded music or live music from the lounge. A dedicated input for the private dining area is provided for connection of music sources. The audio system and speakers in the private dining area can be used and controlled separately from the rest of the room or combined to cover the entire upstairs area.

Internet: Wi-Fi access, both wired and wireless LAN connections are available.
